

Best Ethernet cables in the world								
S. No	Ethernet cable	Photo	Brand	Cable speed	Cable Bandwidth	Compatable Devices	Cable connector	Features
1	Nylon braided ethernet cable-Cat 8		Obram	40Gbps	2000MHz	Televisions, Xbox One, Xbox 360, Switches, Routers Modems, PS3, PS4, Computer, Laptop, Printers, Network Printers, Network Attached Storage Device and other networking equipment.	RJ45 connectors	1. This internet cable is designed to be used in data centers, cloud computing, server applications, and other high performance computer networking application. And flat cable perfects to connect Playstations, Xbox, Network Adapters, Hubs, Switches, Routers, DSL/Cable Modems and Patch Panels. 2. Solid Cat 8 Ethernet Cables Nylon Braided are in flat design to make it can run under the carpet rug or carpet and easier to line up against the wall. 3. Double braided nylon exterior make Cat8 Ethernet Cable more durable, flexible and tangle-free. And this sturdy cat 8 patch cord can be bended at least 10 thousands times, so that you can reuse it without any concerns.
2	Ethernet cable CAT 8		Dacrown	40Gbps	2000MHz	Any device with an RJ45 port, including monitor, patch panels, switches, laptop, scanner, tablet, TVs, hubs, motherboards, RJ45 adapter, notebook, PCs, network cards, other video game console.	RJ45 connectors	1. This cable is designed to support 25GBASE-T and 40GBASE-T applications, it is suitable for small or middle enterprise LANs, especially for data center switch-to-server interconnections. 2. cable is well constructed with pure copper core, aluminium foil shield, woven mesh shield, PVC outer cover and two gold-plate rj45 connector. 3. With the high quality constructure, Dacrown cat8 patch cable is more durable & flexible for heavy duty work. And it is suitable for both outdoor and indoor use because of good water-resistance & anti-corrosion function.
3	Flat ethernet cable CAT 7		Jadol	10Gbps	600MHz	Laptop, Personal Computer, Router, Modem, HP server, PS3 PS4 Xbox360 lan networks, TV ADSL, POE server media players.	RJ45 connectors	1. High quality shielded RJ45 connectors-50 micron Gold Plated contact pins in each shielded 2. Could be used for 10BASE-T, 100BASE-TX (Fast Ethernet), 1000BASE-T/1000BASE-TX (Gigabit Ethernet) and 10GBASE-T(10-Gigabit Ethernet) at high speeds. 3. Cat-7 cable is used to cable the infrastructure of Gigabit Ethernet and is a perfect choice to cable your smart home. After cabling, you can even check for the automation ideas.
4	Ethernet cable CAT 7		Vandesail	10Gbps	1000MHz	Laptop, PS5 PS4, PCs, computer server, printer, routers, switch boxes, network media players, networking switch, modem.	RJ45 connectors	1. It is made out of 4 shielded twisted pair (STP) of copper wires with two gold RJ45 connectors on each end. Compared to the Cat 6A/6/5 Ethernet cable, the additional shielding and improved quality in twisting of the wires provides better protection from crosstalk, noise, and interference that can degrade the signal quality.
5	Ethernet cable CAT 7		Ugreen	10Gbps	600MHz	computers, laptops, modems, routers, PS5, PS4, PS3, Xbox Series, X-Box One, X-Box 360, Nintendo Switch, networking switches, ADSL, network adapters.	RJ45 connectors	1. RJ45 patch cable are Made of 4 shielded twisted pair (U/FTP) of copper wires with two RJ45 connectors on each end. Compared to the Cat 6 network Ethernet cable, the additional shielding and improved quality in twisting of the wires provides better protection from crosstalk, noise, and interference that can degrade the signal quality. 2. The Flat Ethernet cables are super flexible and much easier to manage when run under the carpet, doors, rotating arms and drawers or
6	Ethernet cable- Nylon Braidd -CAT 7		Danyee	10Gbps	600MHz	3D Blu-Ray Player, Real 3D TV, AV receiver with full HD, UltraHD, Supports all resolutions for PS3, PS4, Xbox, Laptop, Television, Personal Computer, Xbox	RJ45 connectors	Special surface braided nylon made the DanYee network cable stronger and elegant ,what's more, it is dirty-proof too. RJ45 UNIVERSAL CONNECTOR -- RJ45 connectors offer universal connectivity to computers and network components, such as Wi-Fi router, modem, printer, Xbox, PS2, PS3, PS4 and switch box. SHIELDED FROM INTERFERENCE: Made of 4 shielded twisted pair (STP) of copper wires with two RJ45 connectors on each end. Compared to the Cat 6 network Ethernet cable, the additional
7	Ethernet cable CAT 6		Cable Greeker	1Gbps	250MHz	Universal connectivity to computers and network components such as Wi-Fi router, modm, printer, Xbox, PS2, PS3, PS4 and switch box.	RJ45 connectors	Comes with bandwidth of up to 250 MHz that provides high speed data transfer Features flat cable design that helps in avoiding tangle cords and save space Gold-plated contacts help prevent signal crosstalk and echo loss. Bare copper conductors enhance cable performance up to 250 MHz. Each cable passes several Standardized processes and withstands strict quality checks, which provide sufficient length and high-quality Ultra-thin design: the cable is flexible, anti-wear, and bendable, it doesn't get tangled easily.
8	Ethernet cable CAT 6		Urgen	1Gbps	250MHz	Mac Pro, PS3, PS4, PS4 Pro, Raspberry Pi 4, TP-Link router, WIFI extender, Switch, Smart TV, Xbox, video game consoles, TV decoder, BT Smart Hub, Virgin modem, Patch Panel, PCs, Network printers, media players, TV box.	RJ45 connectors (Male to Female)	UGREEN Ethernet Cable is made from 28AWG pure copper wire, lower impedance and less loss with high-performance. 8Pcs gold-plated contacts fit snugly with the ethernet cable, to provide a faster and more stable internet connection. The diameter of this braided Cat6 Ethernet cable is 5.5mm, robust and durable enough running around the corners or door frame, etc. 2. This gigabit ethernet cable was build-in 4 pairs of twisted-pair, enhance anti-interference ability and provide high performance.
9	Ethernet cable CAT 6		Amazon Basics	1Gbps	250MHz	Universal connectivity to computers and network components such as Wi-Fi router, modm, printer, Xbox, PS2, PS3, PS4 and switch box.	RJ45 connectors	Cat-6 Ethernet patch cable for wired home and office networks Connects computers to network components in a wired LAN RJ45 connectors ensure universal connectivity 250MHz bandwidth, Measures 14 feet Transmits data at speeds up to 1000mbps or 1 Gigabit per second Kindly make sure - the network interface of device must be compatible with the cable connector.
